## U. S. Can Expect Air Attacks, Congressional Leaders Warn

### VOTE MILLION FOR CIVILIAN DEFENSE WORK

Fund Included In Omnibus Appropriations Sent to House Floor

### URGE PRECAUTION FOR ANY EMERGENCY

Possible Raids, However, No Expected On European Scale

(By Associated Press) WASHINGTON, Feb. 6.—With the warning that the home front could be for hostile aerial attacks, the house appropriations committee today recommended that \$100,000,000 be voted for the civilian defense program.

The amount was the biggest single item in a \$160,590,611 omnibus appropriations bill which the committee sent to the house floor for action.

#### Raids To Be Expected

Enemy air raids upon continental United States are to be expected, the committee said, in approving the civilian defense allotment, "but the general military opinion is that they cannot be conducted on a scale approaching in any degree the intensity or frequency of the raids on England or the continent of Europe."

"Prudence requires preparation at all points that the enemy might reach," the committee added, and it expressed concern lest the allocation of \$29,893,894 might be inadequate to provide facilities for manufacture of enough gas masks for the entire civilian population in the so-called target areas.

The omnibus appropriation measure, designed to meet increased expenses of many government agencies since war was declared, also would provide \$10,000,000 for equipment for training of workers for defense industries and \$15,000,000 to reimburse President Roosevelt's emergency fund for allocations made to civilian defense in Hawaii.

It likewise carried \$7,000,000 for United States participation in the

## Dissatisfaction In Germany Is Explained By Dr. Goebbels

### Nazi Propaganda Ministers Excuse Complaints On Ground People Are Overworked

(By Associated Press) BERN, Switzerland, Feb. 6.—Propaganda Minister Paul Joseph Goebbels acknowledged today that there is considerable dissatisfaction in Germany over the Russian campaign and food and fuel shortages, but explained these complaints on the ground that the people are "overworked and irritable."

In an article in Das Reich, Goebbels declared: "It doesn't matter whether one wants to curse things occasionally; the reasons for this may be varied."

"One complains of the cold, another of the shortage of potatoes or coal, a third about the overcrowded trains, a fourth about the eastern front, a fifth about the war in North Africa. All that really is not bad because we all are overworked and irritable."

"Ask thousands of Germans whether they rather would have war or peace, and the answer would be unanimous: Peace," the propaganda minister went on.

"Ask them whether they would rather fight on or give in, and they will tell you they want to continue fighting no matter how long. That is why we face all the grave problems of these winter months with supreme confidence."

"We are invincible because we have one thing—confidence in our own strength."

### MAIL STATEMENTS FOR DECEMBER TAX

LISBON, Feb. 6.—County Treasurer Olen H. Dawson said today that no definite date has been set for the collection of real estate taxes for the first half of 1941, but statements are now being prepared on the 50,000 parcels of land on the duplicate, and these will be placed in the mails early in March.

The December collection, which is usually completed by this time, was delayed this year as statements could not be prepared until after the special election and the subsequent establishing of the rates of taxation for the various subdivisions.

Dawson urged tax payers to be patient, if they have not received their current statement, and not write in asking the amount as the statements will be placed in the mails as soon as possible.

### Auto Plates Arrive

The Salem office of the Columbiana County Motor club yesterday received a shipment of 5,700 new Ohio automobile license plates, to go on sale March 1.

The 1942 tags, which have green numerals on a white background, must be displayed on all cars and trucks by April 1.

## U. S., BRITISH FLIERS BLAST RANGOON RAID

Volunteer Pilot: Shatter Big Japanese Offensive In Burma Zone

### 20 ENEMY PLANES ESTIMATED LOST

Yanks Are Credited With Seven For Sure, Probably Five More

(By Associated Press) RANGOON, Burma, Feb. 6.—American volunteer and British fighter pilots shattered a big Japanese daylight air raid today on Rangoon, shooting down ten planes and perhaps destroying ten more, a communique announced.

**Yanks Get Seven Sure**  
The Americans alone shot down seven of the total for sure and were credited with five of those probably destroyed in the fierce blow dealt the raiders who had come back by daylight after pounding Rangoon for the third straight time.

The American and British fighters, the communique said, came through the sky battle without a single loss.

An army communique reported, meanwhile, that the "situation on the Salween river front has become quieter in the past 24 hours." It said Japanese and British artillery were in action.

The Japanese attacked Rangoon with six waves, totalling 44 planes, by moonlight and ran into the full fury of the defense fighters when they came back at 9:30 a. m. for a daylight try at the big port for the Burma road to China.

#### Conduct Own Raid

The heavy toll of the raiders was taken by the hard-hitting American and British fliers only 24 hours after they scored heavily in an offensive smash of their own at Japanese positions along the Salween river battlefield.

In that attack the Allied bombers gave Japanese-held Paan such a ruinous bombing that a Texas-born fighter pilot likened the destruction to that at Coventry.

(A Japanese broadcast claimed that seven British and American planes—Spitfires and Curtiss P-40s—were shot down in the daylight attack on Rangoon airport.)

### GREENFORD SCRAP DRIVE POSTPONED

GREENFORD, Feb. 6.—Scheduled to assist in the collection of scrap iron and waste today, Greenford workers must delay their activities until Monday and Tuesday, community leaders announced today, because of delay in the movements of trucks used in the collection.

Because of the large amount of scrap material to be gathered up, it has been necessary to postpone the collection here with two days assigned, Monday and Tuesday, instead of one.

Senior High school boys who will accompany the county trucks include George Bush, Albert Kuhns, Fred Martell, Paul Baird, Robert Cook and John Less.

## Coordinating Defense Work Keeps Salem Attorney Busy

Ralph Atkinson's Work Wins High Commendation from Ohio Defense Council Officials

Att'y Ralph D. Atkinson is one of the busiest men in Salem, and in all of Northern Columbiana county, for that matter.

He is the aggressive chairman of the Civilian Defense council in Salem and of the United Defense council of Northern Columbiana county.

The latter, embracing all the townships as well as the cities and villages in that area, is unique in the state of Ohio, and Atkinson has won much praise from officials of the Ohio Council for Civilian Defense for setting up such an organization which functions so harmoniously and actively.

When the Salem attorney was appointed local chairman he saw the need for coordinating the work in communities surrounding Salem.

Immediately he set about organizing township councils, just as he had done for the U. S. O. campaign last year. It was the first organization of its kind in the state and has been given official recognition by the Ohio council.

Atkinson has been devoting the major part of his time to this work,

U. S. Army air corps fliers, members of the American Volunteer Group aiding in the protection of the Burma road and the important Burma capital city, Rangoon, are covering themselves with glory as they join with British airmen in destroying Japanese air raiders. Rangoon is a city of 400,000 population. Japanese artillery based in abandoned Moulmein has been shelling Martaban in an effort to make it untenable for British imperial troops. Jap barges along the lower Salween river were hit by U. S. and British fliers. American volunteer fliers protecting the vital Burma road, lifeline for China to its capital, Chungking, are headed by Brig. Gen. Claire L. Chennault, well-known in U. S. aviation circles as the leader of the famous air corps' "three men on a flying trapeze" which has thrilled U. S. air show audiences in the past.

## JAP GUNS WRECKED BY U. S. ARTILLERY

Emplacements Apparently Set Up For Attack On Corregidor

(By Associated Press) WASHINGTON, Feb. 6.—Japanese gun emplacements on the southeastern shore of Manila bay, apparently designed for an attack on the fortress of Corregidor, have been destroyed by artillery fire from American fortifications.

The war department, announcing this today, also reported in a communique that nine Japanese transports were debarking troops at ports in Lingayen Gulf, approximately 125 miles north of Manila bay, to reinforce the large enemy concentrations already in Batan peninsula and other parts of the island of Luzon.

The Batan front, the department said, was relatively quiet in the past twenty-four hours, with

## PACIFIC PROBLEM LABELED SERIOUS

Only Huge Reinforcements Can Turn Tide of Battle, Claim

(By Associated Press) WASHINGTON, Feb. 6.—President Roosevelt asserted today that a Pacific council had been in operation here and in London for a month and that there was very close cooperation in its activities.

The chief executive, replying to press conference questions, said the council was handling questions of both a military and political nature and that it had offices here and in London.

Questions of a purely military nature, he said, are referred to army and navy chiefs of staff while those of a governmental or political character are laid before the appropriate governmental bodies in Washington and in the British capital.

He pointed out that the Dutch government in exile has its headquarters in London and that the

### THREE ARE INJURED IN AUTO ACCIDENT

Three persons were injured when automobiles driven by Edgar Myers, 52, of R. D. 1, East Palestine, and Robert Powers, 22, of Negley, collided on Route 170, a mile north of Unity, Thursday morning, according to the state patrol.

Myers received a fractured rib and Powers a sprained back and lacerated knee. Pauline Madden, 22, of East Palestine, who was riding with Powers, received a head bump.

Myers' car slid out of a side road into the path of the other machine, the patrol said.

Only one accident was reported during the fog which blanketed the district last night.

Edward Heindol, 20, of Warren, escaped uninjured when his automobile went into a ditch on the Lisbon road, at Eagleton's glen, at 11 p. m.

## DUCE'S FLIERS IN ACTION ON RUSSIAN FRONT

Disclosure Coincides with Visit of Goering to Italy

### REDS EMPHASIZE HEAVY NAZI LOSSES

Moscow Also Cites Greater German Strength In Land Fighting

(By Associated Press) Germany's famed air force, the instrument that pulverized resistance in Belgium, Holland and France, has called on Italian warplanes for help in the battle with Russia, it was disclosed today by the Nazi high command.

The disclosure coincided with an announcement that Reichsmarshal Herman Wilhelm Goering, chief of the German air force, had just completed a visit to Italy.

#### Nazis Claim 38 Downed

"In fighting yesterday against the Soviet air force, in which the Italian air force took part, 38 enemy planes were shot down or destroyed on the ground," a bulletin from Adolf Hitler's field headquarters said.

It was the first time Italian planes had been mentioned in action on the Soviet front.

Whether the Germans are suffering a shortage in planes or pilots was not disclosed, but recent Soviet communiques have emphasized heavy German air losses.

Today's Red army bulletin, for example, reported 38 planes destroyed Wednesday against 10 Russian planes missing.

#### Germans Gain Strength

MOSCOW, Feb. 6.—German efforts to block the Russian offensive somewhere short of the old frontier of the Soviet union have gained strength—evidently from air-borne reinforcements—but, according to dispatches from the front today, the Red army is still moving forward.

These dispatches, however, significantly related instances of German superiority in numbers—the first such phrase to appear in a considerable time.

The conclusion here was that with the fine flying weather of the last few days the enemy was able to bring up many reserves by air. Many captives report that this method or transport, enforced by the winter difficulties of movement by land, is being widely used by the Germans.

## DUKES, BOYS' GROUP, ARE BLOOD-TYPED

The Dukes of Salem, comprising largely underclassmen at the High school, have completed a project whereby each member's blood has been typed for possible contributions in time of emergency.

Meeting recently at the home of William Dunlap on E. State st., the Dukes voted in nine new members, including Herbert Hansell, Tony Hoover, James Wilson, Ernest Ware, Ray Wise, Gene Howell, Walter Brian, John Hart and Herbert Gross.

The older members, having become seniors, will leave the group within the next two weeks and will be eligible to membership in the Phalanx.

The Dukes were organized about two years ago, their primary purpose being the development of patriotism and service to community and government. They have taken part in many civic projects. Sidney Simon is president of the organization.

The next meeting of the Dukes will be held Tuesday evening at the home of Dick Buraw on the Benton rd.

## BORROW YOUR SUGAR BOOK?

The family basis sugar priority plan announced by the office of price administration probably will be in effect within a month. As described, sugar consumers will be registered by families, each member of the family being entitled to a ration of 12 ounces a week. The ration is obtainable upon presentation of a stamp; retail grocers thereupon paste the stamps to cards that entitle them to draw additional supplies of sugar.

It is virtually the same system followed in priorities, except that the need, itself, constitutes a flat basis for the right to purchase, rather than any plan of preference ratings, as in the priority system. This satisfies the government's purpose, which is to insure against artificial shortage caused by hoarding.

The entire population of the United States is entitled to so much sugar—how the sugar is divided thereafter is nobody's business. The sweet tooth members of the family will get more than their fair share. The fast talkers will take advantage of the good listeners. The diabetics will have a favor to bestow. The moochers will forever be wanting to borrow someone's sugar book. And the careless, of course, will forever be losing theirs.

It will be mighty complicated—and it may be only the beginning.

## SPACE FOR RETREATING

About 15 degrees of longitude separate the British retreat in Libya from the German retreat in Russia. If each retreating force were to return to its starting point, they would be on the same meridian—all of which has nothing to do with the important circumstances of what is happening in Europe and Africa.

This is a time to remember that the primary object of the battles of Russia and Libya is to destroy armies, not to conquer territory. In both instances, the opposing forces have plenty of space. In both instances, moreover, advances have been made at admittedly great cost.

There may be more truth than Germany's opponents like to admit in the explanation that Supreme Commander Adolf I is retreating because it is cheaper than holding on. Likewise, the British in Libya, having carried out their mission of weakening Field Marshal Rommel's tank forces, may be making a strategic retreat. When there is space for it, retreat still is a potent maneuver. Libya and Russia were both made to order for falling back.

## WAVELL AT THE BAT

Gen. Sir Archibald P. Wavell, commander in chief of the United Nations in the Far East, has said what everybody has expected to hear. The United States and Great Britain are sending help. If the Pacific forces can hold till the help arrives, the war there may be expected to take a turn for the better. Japan may lose the edge of superiority in manpower and equipment that has made its sensational advances possible.

But in the meantime, Gen. Wavell has put himself on a spot. He has gone to bat with a man on base and the home team one run behind in the 9th inning. If anything happens now to his reputation as a strategist, the collapse of hopefulness will be comparable only to that awful sound of a tire blowing out—a tragedy intimately related to the job Gen. Wavell is responsible for performing in the Far East. There will be no joy in Mudville for a long time if the mighty Wavell strikes out.

## IT COULD HAPPEN HERE

There are reports of a movement in the state of Washington to send bundles to some of the residents of the city of Washington, and they are far from reassuring. Even though the idea is to make fun of congressmen for having voted themselves a contributory pension, and making fun of congressmen is one of the national pastimes, it would be a good idea to know a little more about the setup before cheering for it.

Nothing cuts quite so deep as ridicule, and mailing trash to legislators to embarrass them is ridicule on the half shell. The laugh is not merely good-natured; it is double-edged. This isn't a time for double-edged laughter. The situation is too serious for it. The result is too handy for the shrewd operators in Berlin who love to pounce on anything that makes Americans look ridiculous.

When representative democracy has been made a little more secure from its enemies, its friends will be able to afford to make fun of it.

## THE STARS SAY:

For Saturday, February 7

DOMESTIC, social and sentimental matters are to be fore, with portent of sorrow, bereavement, illness of loss, affecting the home and social contacts primarily. There is danger of scandal, rumors and other detriments to the reputation, unless particular attention be paid to discreet and circumspect conduct, especially avoiding illicit affairs with the opposite sex. Shun all sorts of excesses and indulgences in private relations.

Those whose birthday it is may avert regrettable experiences and adventures in their private lives by adhering to discretion and precaution in all personal contacts of intimate nature. Failure in this may produce sorrow, bereavement, illness, loss and disappointment, especially in connection with scandal or rumors affecting the reputation. Be tactful, reserved and circumspect in all relation.

A child born on this day may have a faculty for giving offence to those most cherished, being given to intrigue, duplicity and schemes.

## KALININ'S DECLARATION

By DEWITT MACKENZIE

Wide World War Analyst

Soviet President Kalinin's declaration to his people that "the Germans never will recapture from the Red army the initiative which now has been gained" has as a very substantial background the fact that Hitler undoubtedly has maneuvered himself into a very dangerous position through his Russian gamble.

The President bolstered his forecast with the statement that the Nazi invaders have been thrown back as much as 475 miles in some sectors. And still the Reds press on.

Now if Kalinin is right in his prediction, there can be but one end: The Muscovite war machine will keep on rolling until Russian soldiers are marching down Wilhelmstrasse and are using der fuhrer's palatial chancellery for a canteen.

It will place Communist Generalissimo Stalin in the class of major prophet for the words he wrote on the wall on November 7 last—anniversary of the Bolshevik revolution. He said he would give Hitler "maybe a year" before "Nazi Germany must burst under the weight of her own crimes."

Of course, both these prophecies have to be further demonstrated on the battle-field. Still, they are choice morsels to roll under the tongue, especially since neither Stalin nor Kalinin is given to idle chatter.

Hitler is moving mountains in an effort to stabilize his retreating lines and stem the Russian offensive. A Soviet broadcast reports that the Germans have thrown several fresh divisions—mainly older men—into the conflict. There has been fierce fighting in many sectors, but still the Hitlerites are forced to retire, with a heavy cost in dead and war supplies.

Upon Hitler's success in stabilizing his front will depend in large degree how great his striking power will be in the spring. If the rejuvenated Russians keep on going—as they declare they will—until they have their feet on German soil, then the Nazi chief will indeed be in a bad way.

No army could stand such a terrific retreat as that through Russian cold and snows and come out more than a shadow of its former self.

## MODERN EYE SURGERY IS BLESSING

Intricate Operations Have Become Commonplace

By LOGAN CLENDENING, M. D.

I HAVE often toyed with the idea of compiling an anthology which would consist of patients' accounts of their own illnesses.

I have in my collection, a famous doctor's account of his own case

Dr. Clendenning will answer questions of general interest only, and then only through his column.

of sick headache which had been with him all his life. I have the autobiography of a paranoiac. I have the account of a Danish patient who had a brain tumor, called "A Journey Around My Skull."

I have a chapter written by a doctor which might be called "The Mysterious Consequences of Renting an Old Farmhouse for the Summer." The mysterious consequences were that the doctor and his wife and the cat and the dog all developed a queer form of paralysis which turned out to be lead poisoning.

I have a doctor's account of his own case of angina and Dr. Leonard Marks' description of the development of acromegaly in his own person. Also Dr. Percival Potts account of his own Potts fracture and Dr. W. T. Gairdner's very cheerful resume of his own case of heart disease, to say nothing of Mr. Irvin Cobb's description of a hemorrhage from his gastric ulcer which he published under the title of "How It Feels to Die."

To these might be added an article which I have just found in an old volume of Harper's monthly magazine for September, 1873, by the Reverend William H. Milburn which is called "My Blindness and Albrecht von Graefe."

## Early Eye Operations

The Reverend Mr. Milburn suffered from an unlucky, unintentional blow from the hand of a playmate in his left eye. Percival Potts was five years old. It gave him some trouble in college and kept getting worse afterwards in his work in the ministry. He was a friend of Prescott, the historian, who had a similar experience and records as an astonishing fact that no oculist in all America could do him any good.

He finally went to the great von Graefe in Berlin, and after two years of darkness, the doctor performed an operation on him which restored his sight. I gather from the account that it was an ideotomy.

Before the operation the doctor said to him, "I have watched you closely and see that you are a man of nerve. There is a slight spot in the cornea which requires great exactness. Chloroform can not hold you as steady as your will. What say you? I have confidence in your self control."

The patient answered, "Go on without the chloroform."

Advance in Eye Surgery  
It was before the introduction of local anesthesia for eye operations. The astonishing and revolutionary feature of this report to me

"Salem's Appliance Center"

is that in the short period of less than sixty years such operations have become commonplace for the modern ophthalmologist. There is hardly a city of fifty thousand inhabitants in the United States today but which has someone in the city competent to perform this operation successfully.

Von Graefe, of course, was one of the two great pioneers of the science of the diseases of the eye, the other being Donders, the Hollander. He enthusiastically accepted and adopted the use of the ophthalmoscope which had been invented by Helmholtz in 1850. At present the department of the diseases of the eye is one of the most scientific in the entire field of medical specialties.

It seems astonishing that such things as eye glasses to correct re-

fractive errors, which we take for granted almost as much as the air we breathe, should have been practically unknown at that time or were in the hands of charlatans. Samuel Pepys closed his diary by saying that he hoped that the Lord would grant him patience in the blindness which was about to overtake him. As an American oculist has remarked, a pair of diopter lenses would have relieved him and made him see as well as ever.

## Questions And Answers

F. A.: "Is bowling an exercise that will be injurious to a woman in later life? Would you advise a woman against such strenuous exercise during her period?"

Answer: I have been brought up in a school that believes that during a woman's period she should not take a bath, have a permanent wave, or take any strenuous exercise. I hear a lot of women who do all these things without any harm, but that is their responsibility. Personally, I would feel safer to advise you to let all extra activities alone during that time. Out-

side of this and with the exception of the period of pregnancy, there is no reason why a woman shouldn't enjoy bowling without fear of injury in later life.

Plans for a party to be held at Goshen Township High school building Feb. 11 were made at a meeting of the council of the Home Economics club. The group met with Miss Joyce Hollinger Monday evening with 17 present.

The party Feb. 11 will be given by Goshen and Beloit Home Economics clubs, with Sebring and Augusta clubs as guests.

The state convention to be held in Columbus in April was discussed. The seniors were dismissed from the room while plans were made for the senior farewell. Lunch was served. The next meeting will be held with Wade Mountz. March

The Goshen Township schools are sponsoring a scrap iron drive for defense. Trucks will collect scrap iron Friday.

Students of the High school and their parents have contributed approximately \$130 to the Red Cross.

WICKARD OUTLINES  
SOYBEAN PROGRAM

Secretary of Agriculture Claude Wickard has asked that soybeans suitable for planting purposes be withheld from crushing until farmers have had sufficient time to make necessary purchases for spring seeding. George H. Rogers, chairman of the Columbiana county AAA committee, announced today.

To insure producers against a loss from holding these seeds, Commodity Credit Corporation has offered to purchase all lots of uncrushed approved varieties of soybeans remaining on hand May 31, 1942, at a price of \$2 per bushel, provided the germination is 85 per cent or better.

Secretary Wickard explained that larger seed supplies will be necessary to achieve the expanded national soybean production goal of 9 million acres recently announced.

Recent surveys have indicated that a sufficient quantity of good germination seed will be available provided seed now on hand is not crushed before farmers obtain their seed requirements.

Producers are requested to have germination tests made of their soybean seed immediately and to withhold from the market the high germinating seed of recognized varieties of oil content designated by the State Agricultural Experiment Station.

Norway's Nazi Chief

In a ceremony held in a fortress in Oslo, Maj. Vidkun Quisling, "traitor" of Norway, was installed by the Nazis as Germany's puppet premier for Norway. Quisling, who has a hand-picked national assembly which serves as parliament, said he would call a national congress representing all walks of life when the time is opportune. In foreign policy, Quisling said, the foremost task is to conclude a peace with Germany. Norway's refugee King Haakon is in London.

## Card Parties Arranged By Church Group

Plans for a series of card parties to follow the regular meetings were made by the Ladies Catholic Benevolent association at the hall last night. Leaders in the series of parties will entertain the winners at a banquet. The first affair will be held after the next meeting, March 5.

Members accepted an invitation to attend the session of the National Council of Catholic Women at 2 p. m. Sunday, Feb. 22 in St. Patrick's Catholic church auditorium in Youngstown.

A social hour followed the meeting and lunch was served. The committee in charge included Mrs. James Morris, Mrs. Charles Kaufman, Miss Carmel McNicol, Miss Anne Sweeney, Miss Mary Bohr and Miss Mildred Lanny.

### West Virginia Girl Is Salem Man's Bride

Miss Kathryn Yarosz, daughter of Mrs. Steven Yarosz of Albert, W. Va., and Stanley Kamasky, son of Mr. and Mrs. Anthony Kamasky of the Benton rd., were united in marriage recently in St. Peter's Catholic church in Oakland, W. Va., by Rev. Fr. Davian.

Following a wedding trip to Washington, D. C., and in the east, the couple will make their home here.

The bride is a graduate of Thomas, W. Va., High school. Mr. Kamasky, a graduate of Salem High school in 1934 and of Mount Union college in 1938, has been associated with the Equitable Life Insurance Co. in Leetonia and Salem for three years.

### Sorority Members Entertained

Miss Margaret Stewart and Miss Mildred Ospeck were hostesses to the Iota chapter of Omega Nu Tau sorority at the former's home on N. Lincoln ave. last evening.

Members honored Mrs. Harry Benschel, a recent bride, with a shower of linen gifts. Mrs. Benschel was formerly Miss Evelyn Crawford.

Monte Carlo whist was played during the evening, prizes going to Miss Louise Zeck, Mr. Harold Shears and Miss Patsy Bolen. Lunch was served at a long table attractively decorated with valentine appointments. Favors were valentine novelties.

The date and place for the social meeting later this month will be announced. Miss Winifred Ospeck and Mrs. Benschel will be hostesses.

### Program Presented By Group 7

A paper on "World Chaos" presented by Mrs. T. E. Miller, and group singing featured the program of Group 7 of the Methodist Women's Society of Christian Service at the home of Mrs. Howard Holloway on Washington st. yesterday afternoon.

Mrs. Miller was program chairman. Mrs. Elizabeth Kirkbride led the devotional service. Following the program and meeting Mrs. Holloway, assisted by Mrs. E. R. Grotz and Mrs. Blaine McCleskey, served lunch.

The group, of which Mrs. Oscar Marietta is leader, will meet again March 5 at the church.

### Miss Bertha Gross Club Hostess

Miss Bertha Gross entertained Fiat club members at her home on N. Ellsworth ave. last night. Miss Hilda Frenius and Miss Kathryn Peltier won the prizes in "500" for the evening. Lunch was served with valentine appointments.

Miss Margaret Pronius was a guest of the club group. A short business meeting followed the lunch.

The club will meet Feb. 19 at the home of Miss Sylvia Rutter, New-garden ave.

### Miss West Hostess to Club Associates

Club associates of Miss Alice West were entertained at her home on E. Third st. last night.

The next meeting will be held Feb. 19 at the home of Miss Betty Mead on E. Third st.

### Group 6 Convenes at Widmyer Home

Mrs. Arthur Pifer and Mrs. P. E. McNabb were welcomed as guests at a meeting of Group 6 of the Methodist women's Society of Christian Service yesterday afternoon at the home of Mrs. Harvey Widmyer, N. Ellsworth ave.

Mrs. Arch Wentz was received as a new member. Members sewed for the Red Cross.

Mrs. John Wilker led the devotional service. Joan and Richard Widmyer entertained with piano numbers. The former's solo was "Lullaby" (Brahms) and her brother's, "Nobody Knows the Trouble I've Seen" (Negro spiritual) and as a duet they played, "Swing Low, Sweet Chariot" (spiritual).

Plans were completed for a cordial birthday dinner at noon, March 5, at the home of Mrs. C. C. Boyle, W. Fourth st. with Mrs. Russell Stern as associate.

### Officers Are Named by Emmanuel Choir

Emmanuel Lutheran church choir members elected officers at a business meeting in the church last night.

They are: President, Miss Mary Ratscher; vice president, Miss Gertrude Bodendorfer; secretary, Miss Dorothy Lutsch; treasurer, Miss Katherine Minth; librarian, Miss Esther Miller.

Mrs. Daniel Weber is director of the choir.

The next practice and social meeting will be held at the home of the president, 411 Sharp ave. at 7:30 p. m. Thursday.

### Dorcas Class Members Are Entertained

Mrs. Thomas Grindie was welcomed as a new member of the Dorcas society of Trinity Lutheran church at a meeting yesterday afternoon at the home of Mrs. Eric Eytan, Vine ave.

Mrs. Elizabeth Meyers was a visitor. Devotional service was led by Mrs. Harry Izenour and Mrs. G. D. Keister. A short business meeting was followed by lunch.

On March 5 the society will meet at the home of Mrs. Izenour, S. Union ave.

### Miss Dundon Bride of Frank E. Muntz

Mr. and Mrs. Allen Brown of N. Lincoln ave. announce the marriage of their granddaughter, Virginia Lee Dundon, to Frank E. Muntz, son of Mr. and Mrs. Frank K. Muntz of N. Ellsworth ave. at Wellsburg, W. Va., Jan. 27.

The bride, a graduate of Salem High school in 1939, was graduated from Salem Business college in 1941.

Mr. Muntz is associated with his father in the Muntz Trucking Co.

## Aristocratic Air

Bugle beads in shades of yellow, red, green and other tones decorate the lapels of the little jacket, which fastens with two large buttons.

By PRUNELLA WOOD

CERTAIN fabrics fall naturally into the class of materials that are equally at home whether worn to a formal function or a more simple affair. One of these—and a special favorite of fashion at the moment—is lace, whose aristocratic air carries off any situation in which it finds itself with dignity and grace.

Shown here is a gown of Alençon type lace in champagne beige over a foundation of matching crepe. The short-sleeved jacket, just long enough to fit snugly at the top of the belt, is removable for décolletage.

### Leetonia Gets Good Start In Book Drive

LEETONIA, Feb. 6.—Mrs. Ethel Patterson, local librarian, and chairman of the Victory Book campaign in Leetonia, announced this week a donation of 50 books from one source has made a good start for Leetonia's share in the national drive to gather books for the boys in the armed forces.

On a population and percentage basis, Leetonia's share in the national effort is 300 books. The drive lasts through Feb. 28. Books should be taken to the local library during regular library hours.

The Foto club of the High school meets each Tuesday evening with Joy Merrill as faculty advisor. Officers are: President, Tom Kilaney; vice president, Rita McDuff; secretary-treasurer, Dorothy McCoy; business manager, Francis Sidlosky.

The Priscilla club of St. Paul's Lutheran church was entertained at the church parlors Thursday evening with Mrs. E. E. Halverstadt and Mrs. Walter Windram, associate hostesses.

## CONGRESS AT ODDS ON PENSION PLAN

### Proposal Is Given Both Criticism and Support In House

(By Associated Press) WASHINGTON, Feb. 6.—Congressmen already are disputing among themselves over whether they want the two-weeks-old law providing pensions for retired senators and representatives.

Several members of the senate say the law is a blunder and ought to be repealed. In the house there was both support and criticism of the measure which has become the butt of "bundles-for-congress" ridicule.

Asked By Members Chairman Ramspeck (D-Ga.) of the house civil service committee said he wrote the provision into the civil service bill which the President signed Jan. 26 "at the request of numerous members" and had no apologies to make.

The law opens federal retirement benefits to members of congress. Ramspeck declared there was no reason legislators should not be allowed pensions the same as other government employees.

Senator Capper (R-Kan.), 76, and a congressman for 26 years, said he would never ask nor accept a government pension. Capper would be among those eligible to retire next January 1, under terms of the bill. He termed pensions for elective officials "socially immoral."

Senator Byrd (D-Va.) said he planned to ask the senate civil service committee for an early hearing on a repeal measure he introduced. "Six senators have told me recently," he said, "that they had changed their viewpoint on pensions for members of congress and were prepared to vote now against such pensions."

Would Have Reversed Decision A shift of that many votes would have reversed a 34 to 28 decision of the senate which refused on January 19 to amend the retirement bill as Byrd had suggested to require the payment of five years back salary assessments before congressmen could become eligible for pensions.

Byrd has contended that, under the present law, a member of congress who had served five years and had reached the age of 62 could pay \$139—or 5 per cent of one day's salary—into the retirement fund on the closing day of this year and retire on January 1, 1943 with an annual pension for life. Pensions would be based on length of service, with the maximum about \$4,100 annually.

### Drop Street Marker Plan

EAST LIVEPOOL, Feb. 6.—The war today halted the Junior Chamber of Commerce plan to erect street markers here. Unable to obtain metal markers, members voted to invest \$449 in defense bonds until peace is declared.

## HANOVER TOWNSHIP WOMEN TO CONVENE

Women of Hanover township are invited to attend a meeting at the home of Mrs. John Baker in New Garden at 10:30 a. m. Monday, Miss Emma Ramseyer, county home demonstration agent, will demonstrate the use of fruits and vegetables in salads. Leaders will be Mrs. Baker, Mrs. W. S. Leeper, Mrs. Nova Davis and Mrs. Ethel Tracy.

Each one attending is asked to bring her favorite salad to be served at noon.

At that time also the adult education class will meet with Mrs. Mary Kounitz to sew and knit for the Red Cross. The class, which meets each Monday, has completed a large number of garments.

### Sentenced To Life

XENIA, Feb. 6.—Ralph W. Schulte, 37, of Dayton, was sentenced to life imprisonment yesterday by Common Pleas Judge P. L. Johnson for criminally assaulting 10 girls between 7 and 12 years of age.

### Grange Aids Red Cross

## RULES OHIO MUST OBSERVE WAR TIME

Attorney General Herbert's  
Edict Includes All  
Clocks In State

(Continued from Page 1)

time correspond to eastern time.  
Questions arose whether Ohio  
could change its time because the  
legislature specifically provided that  
the state's clocks should be set ac-  
cording to astronomical time.  
A rigid interpretation of such a  
provision would have required var-  
ious public functions to operate  
after Monday under eastern stand-  
ard time—or an hour behind other  
clocks.  
But the attorney general's staff  
concluded that the legislature did  
not intend to make the regulation  
so rigid, but that it wanted only to  
adapt eastern instead of central  
time.

Herbert's formal ruling went to  
Prosecuting Attorney Marvin Kelly  
of Scioto county after at least 19  
prosecutors, scores of city solicitors  
and common pleas judges requested  
a ruling.  
Liquor interests also were inter-  
ested in the opinion to ascertain  
what closing hours should be ob-  
served by permit holders.

## JAPAN CLAIMS TWO DUTCH SHIPS SUNK

(By Associated Press)

TOKYO, Feb. 6.—Two Dutch cruisers  
were sunk and a third Dutch cruiser  
and a United States cruiser of the  
Marblehead class were heavily dam-  
aged by Japanese naval planes in  
the Java sea, Japanese imperial  
headquarters claimed today.  
This was the score in a sea and  
air engagement reported in a com-  
munique broadcast by Dorei several  
hours after an earlier communique  
was broadcast listing one Dutch  
and one American cruiser and a  
5,000-ton vessel as sunk in the  
fight.

The text of the second version:  
"Japanese naval bombers on the  
day following the mass raid on  
Sourabaya spotted on Feb. 4 the  
main Netherlands East Indies fleet,  
escorted by destroyers, at a point  
30 miles south of Kangean island,  
and sank two Dutch cruisers and  
heavily damaged another  
Dutch cruiser and one American  
cruiser of the Marblehead type."  
"One 5,000-ton enemy vessel also  
was sunk."  
"One Japanese plane is missing  
from the operations."  
"The Dutch cruisers sunk included  
one of the Java type, of 6,670 tons,  
of the De Ruyter type, of 6,450  
tons."  
"The United States cruiser was  
lost as of 7,050 tons."  
"The Japanese air action resulted  
in the virtual annihilation of the Dutch  
Navy."

## VOTE MILLION FOR HOME DEFENSE AID

Congress Leaders Warn of  
Possible Air Raids  
From Enemy

(Continued from Page 1)

proposed Inter-American highway  
and \$5,000,000 for the maintenance  
of enemy diplomats in the United  
States, as well as to finance Amer-  
ican diplomats in belligerent coun-  
tries.

Mayor Fiorello LaGuardia of New  
York, director of civilian defense,  
who appeared before the appropri-  
ations committee, asserted that the  
people might expect short, surprise,  
sporadic air attacks with heavy  
losses and possible complete destruc-  
tion of "many of our residential  
districts."

"We are in a bad fix right now,"  
he said bluntly in testimony made  
public today.

Manhattan's chunky chief execu-  
tive, an army aviator in World war  
No. 1, told the committee that he  
was remaining as chief of the na-  
tion's civilian defense only until the  
appropriations bill was passed by  
congress, "then I have to go back  
to my city."

CLEVELAND, Feb. 6.—Two pitch-  
ers—Clint Brown, 38, and Rookie  
Raymond Poat, 24—turned in signed  
contracts yesterday to bring to five  
the number of players who have  
agreed to play baseball with the  
Cleveland Indians in 1942. Others  
who have signed are Lou Boudreau,  
shortstop-manager, Pitcher Jim

## Barred to Aliens

As a precautionary measure, the  
U. S. government has set up a  
"restricted" area, 500 miles in  
length, along the California coast-  
line in which enemy aliens will be  
subject to a 9 p. m. curfew. At  
the same time, enemy aliens are  
barred from other sectors of the  
Pacific coast states where dams  
and other vital installations might  
be sabotaged. The Federal Secur-  
ity Agency has undertaken the  
task of moving thousands of ene-  
my nationals, mostly Japanese,  
from more than 80 areas.

## SEED GERMINATION IS GOOD, SAYS STATE

COLUMBUS, Feb. 6.—The best  
seed germination in several years  
was reported today by Ohio depart-  
ment of agriculture analysis test-  
ing samples for use by farmers this  
spring.

Eighty or more per cent germina-  
tion of all field crop seed samples,  
including soybeans, was found, al-  
though the effect of January zero  
temperatures has not been deter-  
mined.

The high rate of germination was  
considered valuable to farmers who  
have been asked to increase crop  
production 10 per cent this year  
because of war needs.

Preliminary reports to the agri-  
culture department indicate that  
Ohio farmers will plant 995,000  
acres of soybeans, or 320,000 more  
than in 1941. Last year's crop  
totalled 13,143,000 bushels in Ohio  
against 8,835,000 bushels in 1940.

The larger 1942 planting program  
presages an unusually heavy de-  
mand for good seed, an agriculture  
department spokesman said.

## Today's Pattern

"A. M. FROCK" IS NEAT AND TRIM

Pattern 4003  
It's 8 A. M. and you have a busy day ahead! But being busy is no excuse for not being well-groomed—especially since you can get such pretty, modern home frocks like this one designed by Anne Adams. Pattern 4003 slims you down just at the most strategic places—the bias side sections come below the waist and give you a longer-torso effect that is charming, wearable. Do make the frock in checks or small plaids to show off this effect. A scalloped neckline and scalloped short sleeves are feminine... Point them up with ric-rac! Two other sleeve lengths are optional; an all-around belt is too. To make the back view as slender as the front, a neck-to-hem panel is used. Stitch this frock up immediately for spring wear.

Keep the Sewing Instructor handy! Pattern 4003 is available in women's sizes, 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 4 1/4 yards 35 inch fabric.

Diphtheria deaths were cut from 1,997 in 1939 to 1,457 in 1940—a saving of 540 lives, the Census Bureau reports. If similar gains were made each year, the disease could be wiped out by 1945.

## How to make Pillsbury's Crown-of-Cherries Dessert

Complete recipe:

1. Combine 2 tps. cornstarch and 2 Tbs. sugar; add 1/2 c. cherry juice gradually; cook until thick and clear. Pour this glaze into a well-greased 8-in. layer pan. 2. Arrange 2 c. (No. 2 can) sour pitted cherries, well drained, on glaze to cover bottom of pan. 3. Sift and measure 1 1/4 c. Enriched Pillsbury's Best Flour. 4. Cream 1/2 c. butter and 1 c. sugar gradually; beat until light. 5. Add 2 eggs, well beaten; mix well. 6. Add dry ingredients alternately with combined 5 c. milk and 1 tsp. vanilla; mix well after each addition; beat well at end. (That fluffy lightness is typical of batter made with Pillsbury's Best. This superb flour is BAKE-PROVED; actual baking tests are made to 6 times daily during milling.) 7. Bake 1/2 hour in cherry-glazed pan and other 1/2 in well-greased 8-in. layer pan in moderate oven (375° F.) 20 min. for plain layer, 45 min. for layer with cherries. 8. Spread cold layer with sweetened whipped cream, using cherry layer on top. When men folks and women folks, too, bite into that fluffy Pillsbury cake—they'll exclaim, "Why, it tastes even better than it looks!" So get Pillsbury's Best Flour today—and try this new dessert in your own kitchen!

## NEW NOTES ARE INTRODUCED INTO SWEATER STYLES

Left, middy tie slipover sweater; center, long pinch-waist cardigan; right, hair pom cardigan.

Three distinct new notes were introduced in the new spring sweater styles shown at a recent fashion review. Once considered a staple or classic item in a woman's wardrobe, sweaters are coming into their own more every day. They are a full two inches longer than those of last season, and torso fitted. New luscious shades include baby shades of pink and blue, champagne, palm green, maize and pearl gray. The middy tie slipover, left, is made of tissue knit, and carries out the middy tie line at neck and sleeves. Horizontal stripes on each sleeve match the collar's second color. The cardigan, center, is made of silk foam. It has a long pinch waist and long sleeves with cardigan closing. The hair pom sweater, right, is a short-sleeved cardigan which features two wool pom poms at the neck and an additional one for the hair. It has a fringed border closing and is torso fitting.

**He Meant Well**  
FOLKSTON, GA.—A Charleston county resident, after buying a government automobile tax stamp, asked Postmaster V. J. Pickren what he should do with it. To do place it on his windshield, he said he had none. "Well, stick it in a conspicuous place," Pickren advised. The buyer said he guessed he'd have to get a board and stick it on that.  
"What kind of a car do you have, anyway?" asked the postmaster.  
"I ain't got no car," was the reply. "All I got is a mule."

EL CENTRO, Calif.—Ducks are getting all the breaks as a result of war. Formerly they were kept from eating crops by revolving lights that swept the fields. Defense regulations prohibit the lights now and the ducks are having a Roman holiday in Imperial Valley.

The Problems Of Rationing

Administrator Discusses Methods and Reasons, Calling for Co-operation of Public

BY JOHN T. BURNS

In addition to the rationing of goods already named in Ohio each county has an advisory committee. This advisory committee is elected by the Defense Council of the county. The Columbiana county advisory committee is composed of Mayor Earl Greenawald of East Liverpool, Mayor W. A. Hinton of East Palestine and J. H. Hinton of Hanoverton. Our Columbiana county advisory committee is doing an active interest in the rationing work and is co-operating fully with the county co-ordinator. Finally there is the group called "inspectors." Inspectors are appointed by the local rationing boards from dealers within their jurisdiction who are competent to make inspection of tires and who are repair facilities. By repair facilities it does not necessarily mean that they must have equipment to do re-treading or repairing. This concludes the list of personnel actually functioning at the present time in the rationing system.

Before proceeding further it may be well to give a few definitions of some of the terms which will be used later.

"A dealer" means any person selling new rubber tires or tubes at a retail store, and a retailer means one from which sales or transfers of new tires and tubes are made predominately (at least 75 percent) direct to consumers.

"New" as applied to tires and tubes means a tire or tube that has never been used more than 1,000 miles.

"Purchase" means purchase, lease, trade, borrow or accept delivery, shipment or transfer by gift or otherwise.

"Rubber" means compounded latex which on December 11, 1941 had not been processed or used in such manner that further processing is necessary to prevent spoilage, and all forms and grades of crude rubber and liquid rubber in crude form, and all forms of reclaimed rubber and scrap rubber as well, but does not include gutta, gutta percha, gutta, sisk, gutta serena, and pontianac.

"Tire" means any solid rubber tire or, as applied to a pneumatic tire, any casing, capable of being used on any automobile, truck, bus, motorcycle, or farm implement.

"Truck" means any vehicle designed for use on the highways.

Home Defense

MOUND CITY, Mo. — Worried about ammunition for your home arsenal? Take a tip from the Mound City American Legion post. Thinking of that day when all of the bullets may be in the army and the Legion members may be called on for emergency patrol, they've laid in a supply of bows and arrows and are practicing diligently.

Police Chief O. F. Hogan is giving his boys some of the same training.

WILTON, N. H. — Raymond Bat-chelder, 25-year-old Hillsboro county farmer, is the third generation of his family to serve as Advance Grange Master. His 53-year-old father was five times master of the local grange and his 82-year-old grandfather served as head of the Wilton Center group.

Latest figures indicate that the country has 27,987 hotels, with 1,445,415 guest rooms. If these were all devoted to the use of persons on vacation, everyone in the United States could stay one week a year in a hotel.

PACIFIC GROVE, Cal.—Circulation of books at the public library dropped 1,500 volumes in December under the figure for the same month in 1940, presumably because of blackouts. Librarian Joseph Belloli reports. Blackout curtains and emergency facilities are to be installed in the cellar now.

### Auto Fatalities Mount

COLUMBUS, Feb. 6.—All available policemen were ordered transferred to the motorcycle division by Safety Director Roy Weed after the city experienced three traffic fatalities within 24 hours yesterday. Bans on left turns at 14 uptown intersections during rush hours also went into effect today.

### NEW CANAL ROUTE HEWN FROM JUNGLE

Army Machines Can Travel From Ocean to Ocean In Two Hours

(By Associated Press) BALBOA, Canal Zone, Feb. 6.—A new Panama canal safeguard has been established in a 48-mile trans-isthmian highway, over which army machines can travel ocean-to-ocean in two hours.

At places the route is only a one-way graded trail hacked through dense tropical jungle, but army trucks traversed it for the first time this week, demonstrating its availability in any emergency involving the vital canal and closely paralleling railway.

The highway adds a third and well-separated route to the canal and railway which hitherto were the only avenues of heavy transport across the isthmus of Panama.

Begun in December, 1940, as a joint canal zone and Republic of Panama enterprise, the highway assumed enormous military significance after the United States and Panama entered the war against the Axis in December, 1941.

Canal defense authorities promptly obtained permission of the United States public roads administration to cleave a trail across seven miles of jungle-covered hogback hills and deep ravines—last portion of a right-of-way originally planned for commercial traffic.

The army engineers moved in and after 14 days of relentless labor constructed a trail over which army "peeps" (command cars) and "peeps" (quarter-ton bantams) can slog and powerhouse their way from Atlantic to Pacific or vice versa.

Now it becomes the job of the public roads administration, during Panama's present "dry season," to lay a two-way 50-mile-an-hour concrete highway before arrival of the "rainy season" that would speedily reduce this strategic highway to the jungle from which it was so recently reclaimed.

Granted a full quota of dry weather, the job will be done in two months. The paving will cover a 27-mile stretch from Atlantic coast bases to Madden dam, there connecting with an asphalt road which extends to the Pacific coast bases.

### FOR DEFENSE

### JAP GUNS WRECKED BY U. S. ARTILLERY

Emplacements Apparently Set Up For Attack On Corregidor

(Continued from Page 1)

decreasing enemy bombing attacks, which resulted in no damage. The text of the communique, No. 93 of the war, based on reports received here up to 9:30 a. m., eastern standard time, today:

"Philippine theater: "Japanese gun emplacements on the southeastern shore of Manila bay were destroyed by fire from our fortifications. These artillery positions were presumably designed by the enemy for an attack against Corregidor."

"Nine Japanese transports are at ports in Lingayen gulf, debarking troops to reinforce the already very large enemy concentrations in Batan and other points on the island of Luzon."

"Relative quiet continued all along the front in Batan during the past twenty-four hours. Enemy aerial bombing attacks on our troop positions, which began early in the day, decreased later on. They resulted in no damage. Intermittent artillery fire flared up in the center. There was some increase in patrol operations in this same general area."

"2. There is nothing to report from other areas."

### PACIFIC PROBLEM LABELED SERIOUS

Only Huge Reinforcements Can Turn Tide of Battle, Claim

(Continued from Page 1)

British dominions also are represented there.

**Situation Serious** Military and naval experts asserted today that the situation of Allied forces in the western Pacific at the end of the second month of war was very serious and that still further reverses could be expected.

While fully recognizing the heroic achievements of defenders in the Philippines, Singapore and the Dutch Indies, and allowing for Japanese losses of more than 100 ships and thousands of men, these authorities grimly declared that only the delivery of huge reinforcements—difficult if not impossible at this time—would turn the tide of battle against the enemy.

The Japanese were said still to possess the great advantages of time and initiative seized in their sneak attack on Pearl Harbor, two months ago tomorrow. Theirs is the choice of when and where to attack, and the costs they are paying in troops and material were described as not too great for the advances they have made.

Effective reinforcements, especially in war planes, could block further advances and hold the threatened bastions still in Allied hands, it was said, for the Japanese position has become vulnerable at many points.

But America's great striking power is still largely in the factories and training camps. And the material now ready for the fighting fronts must be divided among England, Russia and Africa as well as the Orient and transported with naval protection over thousands of miles of dangerous ocean.

**On The Jap Side**

As strategists here view the enemy gains in two months of incessant action, the Japanese have:

1. Prevented offensive use of the Pacific fleet for many weeks by the raid on Pearl Harbor.

2. Forced the Asiatic fleet to withdraw from its Philippine bases and pushed the American defense forces on the islands into a last ditch stand on Batan peninsula and in the forts covering Manila bay.

3. Completely overrun the Malay peninsula and put the British base of Singapore under siege with overwhelming forces after having destroyed the mainstays of British naval power in the Orient—the battleship Prince of Wales and the battle cruiser Repulse.

4. Made landings at various points in the Dutch East Indies so that without waiting for the fall of either the Philippines or Singapore they are already able to bomb such Dutch bases as Soerabaya, on which China depends for the lend-lease munitions she needs to continue the war.

Despite these spectacular successes, which have required three transportation of troops and supplies more than 2,000 miles from Japan, the enemy forces have shown no sign of slowing down or of encountering opposition which their audacious strategy had not provided for.

The more pessimistic among Washington observers fear that this means various Allied strong points will be lost, the Indies jeopardized and possibly overrun and even Australia directly and forcefully attacked.

Yet none doubts that in the long run the weaknesses inherent in Japan's military and naval position will crack under the growing power of Allied, and especially American, forces.

Military and naval men say these weaknesses are numerous: Japan's army of approximately 2,000,000 men is scattered from Russia's Siberian border to the island of Borneo. Her navy, split between the main fleet and convoy ships, is engaged in convoy duty all over the China sea and western Pacific.

**Takes Army Post**

COLUMBUS, Feb. 6.—Dr. Harry A. Kemp, dean of Ohio State university's medical school, said last night that he would leave "in the immediate future" to become a member of the army medical training school faculty in Washington. He holds a Major's reserve commission.

**Ohic Cadet Killed**

SAN DIEGO, Calif., Feb. 6.—An army training plane struck a high tension line and plunged to a road near Santee, Calif., yesterday, killing Lieut. Karl E. Danner, 24, of Marion, O., and injuring a cadet student whose name was not released.

**Cage Star Enlists**

BOWLING GREEN, Feb. 6.—Dewey Johnson, Bowling Green university's star basketball player, has enlisted in the army air corps.

**Take Medical Exams**

LISBON, Feb. 6.—Twenty-eight Lisbon draftees will go to Canton tomorrow for medical examinations.

RENO, Nev. — The year started badly for the Chester Mallfield family. First, Chester, Jr., tried out his new skates and broke an arm. Chester, Sr. had an automobile accident on the icy streets and suffered bruised knees and a sprained back. After that Mrs. Mayfield slipped while getting out of the bathtub and broke a toe.

Latest production figures show that 44,5003 farms grow 1,760,000 bushels of popcorn annually.

### Here and There About Town

Returns to Salem

Elden Groves of Columbus, former editor of the Farm & Dairy, local farm weekly, will return to Salem the end of the month to re-enter the publishing field he quit two years ago.

Groves, who has been associated with the Farm Security Administration in Columbus, will succeed Ora Anderson as editor. Anderson has taken a job as manager of the Youngstown branch of Dairy Cooperative Sales association.

**Car Hits Pedestrian**

Percy Callahan of 971 E. Third st. suffered a bruised left leg when knocked down by an automobile at the intersection of E. State st. and Lincoln ave. at 6:45 a. m. yesterday, police reported. The car was driven by a Lisbon motorist by the name of Husine.

**Auto Is Stolen**

Glenn Shafer of R. D. 2, East Palestine, reported to police yesterday the theft of his automobile from a downtown E. State st. parking place. The car, a 1934 Chevrolet coach, was licensed L-758-Q.

**Hospital Notes**

The following patients have entered the Salem City hospital for surgical treatment: Mrs. Harry Hulton, East Palestine; Mrs. William Yarian, Columbiana.

**Nurses' Meeting Postponed**

The meeting of the Graduate Nurses association, planned for last night, was postponed until March 5.

### DISSATISFACTION IN REICH EXCUSED

(Continued from Page 1)

disadvantages of being a "young nation", Goebbels said that it was easy for older political systems to weather adversity but that National Socialism still was so young that the people have not yet developed full confidence.

"Today the German people are more to be admired than during the battle of France when the radio carried special announcements of new victories every three hours," the propaganda minister continued. "It was not difficult to believe in victory then."

"However, when the time comes that the conquered areas have to be held and defended, and when the leaders of the state and the army are faced with constant new difficulties, then deportment and morale are necessary, and it is this deportment and morale which the German people show today."

### Mrs. Fry Hostess To Columbiana Club

COLUMBIANA, Feb. 6. — Mrs. Wick Fry welcomed members of the Sorosis club at her home Wednesday evening. Mrs. E. T. Coyle presided at the short business meeting. The subject of the program was "Gautemala." Roll call featured Central American news. Mrs. C. H. Shontz reviewed the chapters of the study book, "Indian Republic." Mrs. Virginia Felger gave a travel talk illustrated by pictures of Gautemala. Mrs. Clyde Richardson read a group of poems. The next meeting will be February 18 with Mrs. Ralph Hum as hostess, at the home of her daughter, Mrs. Claire King.

Dr. J. R. Sillars of the Presbyterian church, Massillon, will be the guest speaker Sunday morning at the local Presbyterian church. This is an exchange in keeping with the Presbyterian work of the church boards. Special music will be furnished by the junior and senior choirs.

"Husband's night" will be observed when Columbiana Music Study club meets Wednesday evening at Valley Golf club. Hostesses will be Mrs. Evan Roller and Mrs. W. E. Clendenin. The program committee is composed of Mrs. C. H. Shontz, Mrs. Robert Maurer and Mrs. Jacob Hubert.

Mrs. C. W. Griswold is confined to her home with a severe cold. There will be a special service Sunday evening at 7:45 at the Presbyterian church honoring Boy Scout week.

A Sons of the Legion squadron was organized last night at a meeting in Benjamin Firestone post home, with Norman Prenzner, Jr., being installed as captain. Harry Goldberg of Salem, county squadron chairman, was the installing officer. The Columbiana unit has 21 members.

# WAR CURTAILING EXPORT OF AUTOS

Production Ban Leaves No  
Passenger Vehicles For  
Overseas Markets

DETROIT—Virtual suspension of passenger car production after Jan. 31 kicks the bottom from the automobile industry's overseas markets, according to specialists in vehicle export business.

Shipments of military vehicles and some commercial trucks to countries fighting the Axis powers and to our neighbors in the Western hemisphere will continue, but there will be few if any passenger cars sent abroad.

Notwithstanding war-time shipment difficulties, automobile manufacturers exported approximately 25,000 passenger cars and trucks during 1941, an increase of 6.2 per cent over the previous year. Shipments of military vehicles and trucks to anti-Axis countries accounted for a large share of 1941 exports.

Although 1941 overseas shipments exceeded those for 1940, they fell far short of exports during the years 1934 through 1939. Best export year was 1929, when 733,762 motor vehicles were shipped outside the boundaries of the United States. This comprised 13.7 per cent of 1929 output.

The government already has placed all automobile and truck exports under its control. Since Jan. 7, all shipments of motor vehicles outside the United States has been prohibited without a license from the Economic Warfare Board.

No Restriction On Parts

C. B. Thomas, head of the Chrysler corporation's export division, is confident, however, that some sort of system will be worked out by the government for shipment of commercial vehicles to friendly powers, especially in South and Central America.

Thus far no restrictions have been placed on shipment of parts which, according to Thomas, are "absolutely essential" to keep present vehicles, especially trucks, running. Interior roads in many countries south of the Rio Grande hasten war.

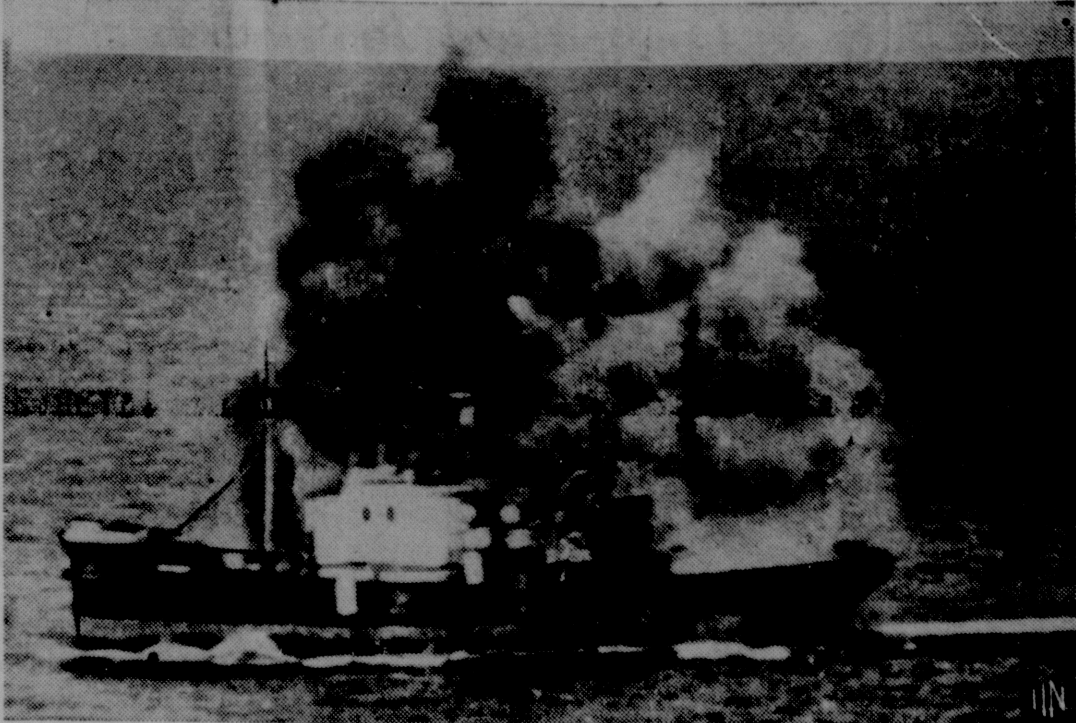

Another industry leader said that from the viewpoint of hemispheric defense it is vital to have adequate rolling stock—rapid and flexible—to keep necessary materials moving to strategic locales.

"South America's interests now are our own," this spokesman said. "We've got to help our friends. Their transportation systems do not measure up to ours, and the least we can do is to keep what facilities they have in good working order. It's a serious problem—one that demands our immediate attention."

Biggest export markets during 1941 were South America and Canada and both doubtless will be top customers of the American automobile industry during the anticipated post-war boom. The Union of South Africa also has been a major buyer during the last decade.

The census bureau reports that a 32-year-old white mother with seven previous children named her male triplets Shadrach, Meshack, and Abednego. A 37-year-old Negro mother (nine previous children) named her male twins Nip and Tuck. A 14-year-old unmarried Negro mother named her mixed twins Esso and Essolene.

## EVACUATION NEW JOB FOR NAVY MAN

Becomes Specialist In Getting Troops Out Of Tight Spots

OTTAWA, Ont. — The war has created some unusual occupations in the land, sea and air forces of the Empire, but none stranger than the one called "evacuation expert" by a British sailor.

Ordnance Artificer G. Davey, of Sheffield, Eng., on leave in Canada after Mediterranean service in a light cruiser of the Royal Navy, declared that through force of circumstance he and his shipmates became specialists in the military art of getting troops out of tight spots with as little loss as possible.

"We missed the big show at Dunkirk," Davey said, "but we helped get the boys out of Namsos, Greece, Crete and Berbera. We look on ourselves as evacuation experts now."

Davey was a fitter in a Vickers plant before the war but joined up at the outbreak.

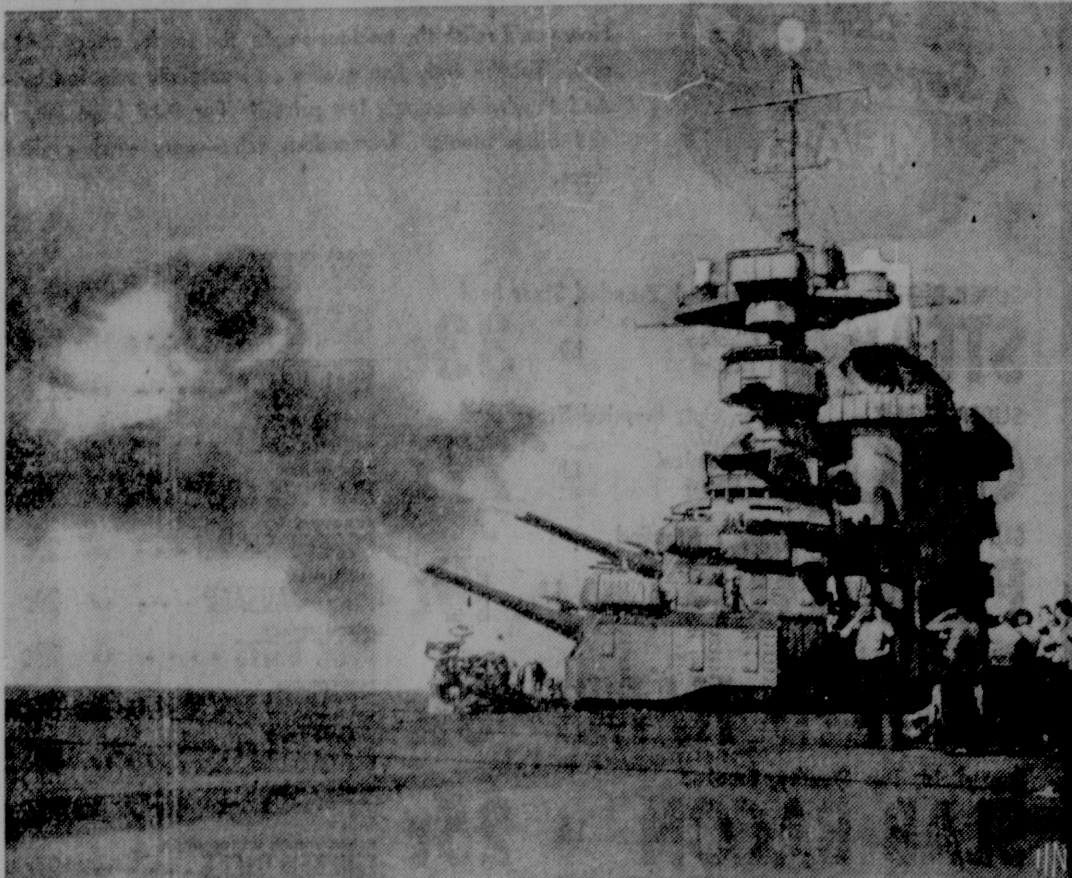

**Keep the Air Clean**  
"I'd always wanted to join the Navy," he said, "but a 12-year period looked a little long to me. Now I'm in for the duration, and I don't think it will last quite that long."

"I've been serving on a light cruiser," he went on. "We carried a lot of anti-aircraft armament and were in great demand for conveying and other work."  
"We carried troops out of Greece, and might glad to see us," they shouted. "Thank God we've got a Navy," as they trooped aboard.

"We could only give them bread and butter and thick Navy chocolate you can stand a spoon in, but they thought it was the grandest feed they'd ever had. Later we were able to serve them a hang-up meal and they certainly enjoyed it."

**Big Bomb Hits Gun**  
"But Crete was the most exciting battle," Davey added. "Dive bomb-

An aircraft carrier's two forward batteries let go a salvo at a target being towed several thousand yards distant. These guns are manned twenty-four hours a day, and the carrier is now somewhere in the Pacific as a unit in an offensive patrol against Axis U-boats and surface ships.

ers came over in droves and swooped on our ships. We kept the air filled with metal. Sometimes the planes would continue on downward right into the sea. Then we'd know we had hit the pilot.

"One 500-pound bomb landed right on us. If it had hit the deck it would have gone below and done for us. But it hit a gun square on and exploded. The gun disappeared as though it had been swept away. I threw myself on the deck and escaped the blast."

Nazi troops trying to invade the island in small native boats had a rough time of it too, according to Davey.

We ran our cruiser right in to the mass of them," he recalled with relish. "The little boats were tipped and smashed in all directions, and the Nazis thrown into the water. Not many survived that venture."

## Keeping Highway System Open In Winter Is Long, Hard Job

Keeping the state highway system open under the conditions brought about by snow and ice requires foresight and hard work for long hours, it was stated today by E. R. McCullough, of New Philadelphia, division engineer for Division No. 11.

Numerous supplies of ashes and sand are prepared, mixed with calcium chloride and placed at various points throughout the division by Edw. Martin, assistant division engineer.

In Columbiana county, E. O. Harsh, county superintendent, reports that a large supply of equipment and material for snow removal and ice control, for the 247 miles of state highway, are located at the highway garage in Leetonia, for the use of some of the crews.

Frank Thomas and crew have eight stock piles located near Salem on Routes 62 and 45.

Clyde Anthony and his crew have 12 stock piles conveniently spaced on Routes 9 and 30, near Lisbon and Hanover.

Davis F. Walters and crew have five piles located northeast of Lisbon on 517 and 164, also near Columbiana.

Edward E. Myers and his crew have five conveniently located ash piles northwest and southwest of East Palestine on Routes 154, 14 and 502.

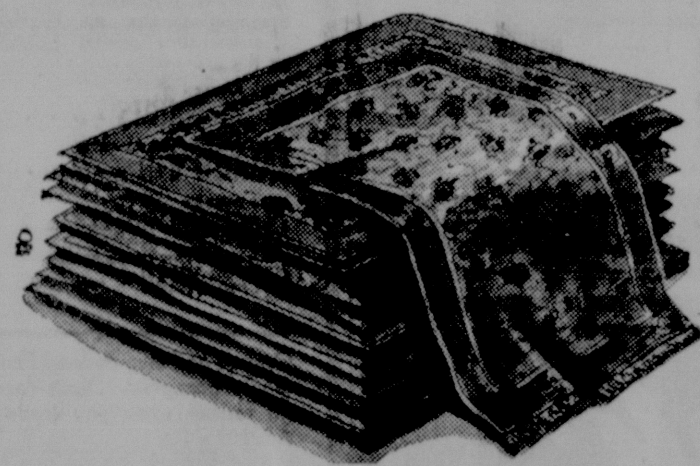

Howard Koffel and his crew have 12 ash piles located conveniently south of Lisbon and near Wellsville and Salineville on Routes 30, 45, 39 and 382.

E. R. Wickam and his crew have 12 ash piles north of East Liverpool on Routes 7, 30, 170 and 502. For the safety of highway users maintenance trucks are installing flasher type lights which are one in front and red in the rear. Highway users should be extra careful to avoid accidents when snow has just fallen because it is necessary for maintenance trucks when clearing.

PERT HOME OR SPORT FROCK Pattern 4006.

Make yourself a whole wardrobe of smart home or sports frocks from this one pattern—4006 by Anne Adams. It slips on and off easily, irons easily, stitches up quickly! See the clever front buttoning, the comfortable collarless neckline and set-in belt. Soft gathers below the yoke add just the right amount of "action ease." Make one up in a strawberry print to wear about the house and another, using bright color contrast, for an active sports frock. White pique with red pockets, yoke and belt would be so vivacious—use the square neckline shown. Gathers instead of darts above the waist are optional, also long sleeves. Let the Sewing Instructor help you if you're not expert with your needle.

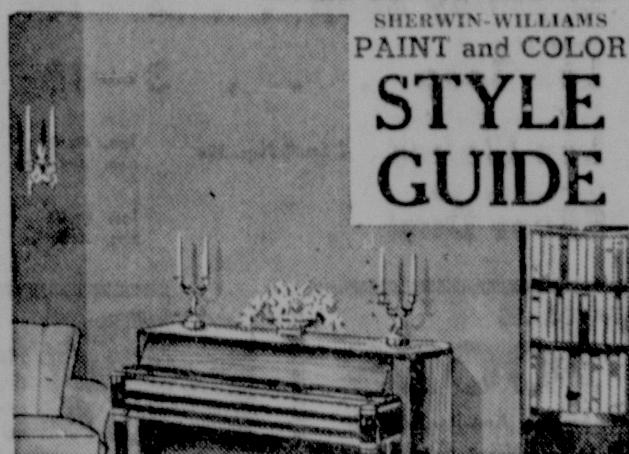

Pattern 4006 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 takes 3 1/2 yards 35-inch fabric. Send FIFTEEN CENTS (plus ONE CENT to cover cost of mailing) for this Anne Adams pattern. Write plainly SIZE, NAME, ADDRESS and STYLE NUMBER.

# "THURSDAY'S CHILD" by VERA BROWN

FROM THE OLD RHYME: "THURSDAY'S CHILD HAS FAR TO GO"

CHAPTER SIXTEEN

Hollister, Kirk, the Chief, and O'Regan were gathered in the private office. Kirk was talking. "Do you believe she killed my brother?" O'Regan shook his head. "I don't want to. I was with her all afternoon. I'm beginning to think she may be telling the truth."

"Don't be a fool, O'Regan!" rasped the Chief. "All the evidence is against her. But we've got to find the boy! That will clinch the case." He turned to the older man. "I'm sorry, Mr. Hollister, but we've got to do our duty."

"I want you to," replied Hollister. "If she killed my son, she must pay for it."

"Dad, you don't believe she did?" Kirk's voice was pleading.

"I can only hope it isn't so," said the father. "I think I'd better go back to your mother. She's going to need me. Kirk, and I can't do anything here. Will you stay?"

Kirk nodded.

Next morning the search for the boy began again. O'Regan took Sonny with him. Kirk went in another car. It was noon when they finally found the gasoline station. O'Regan's hopes jumped. The man on duty was not the night man. They had to go down the road three miles to get the latter out of bed.

"Did you ever see this girl before?" asked O'Regan, pointing to Sonny.

She waited, hands clenched.

"Can't say I did." The man scrutinized Sonny carefully.

The girl leaned forward. "But you did. I drove into your gasoline station three nights ago and got 13 gallons of gasoline."

"So many people stop," he murmured.

Sonny persisted: "It must have been midnight. A red roadster."

The man scratched his head: "Guess I do remember at that. You almost took a pump out getting away."

"Yes," Sonny's voice was triumphant. She turned to O'Regan: "Now do you believe me?"

O'Regan replied non-committally.

He questioned the attendant further: "Was the girl alone?"

"There was a man with her. A funny looking guy. I remember thinking he was a queer one to be with such a pretty girl."

"Can you describe him?"

"Can't say I can. He had a crooked nose."

Sonny went limp against O'Regan. She had been so afraid the man would fail to recognize her.

After leaving the gasoline station, O'Regan listened as Sonny went on with her story:

"The hitch-hiker said he wanted me to drive near the Canadian border. When we came back near Malone, I thought of wrecking the car. I kept thinking about it, and he kept urging me to drive faster. Then it just happened," she said, explaining the crack-up of the car.

That afternoon, the search for Tom continued. They drove over back roads until O'Regan was dizzy.

Sonny kept telling the story over and over to O'Regan. Little things came back. What the man had said to her. How he had taken her purse with five dollars in it.

Toward sunset they started back toward Malone. Sonny was slumped down in the seat, her eyes half closed. Suddenly she sat up. "This looks familiar. Tom and I drove over here several times." Then she broke down again.

O'Regan went more slowly. Shortly they came to a cross-road. "Let's try to the left," Sonny said. They went on deeper into the woods. Then they came out on a

road with two tall trees on either side.

"I think this is it," the girl said slowly. "Keep going."

O'Regan went on, a quarter of a mile, half a mile.

"It is just around the bend," she covered her face with her hands for an instant, then bit her lips to keep them from trembling. Beyond the curve she told O'Regan to stop.

"There. Beyond those bushes. I'm sure."

"You stay here with Thomas," O'Regan said. He went on into the thicket and disappeared. They could hear him moving about. Branches snapped. Then he called: "Bring Mrs. Hollister."

With faltering steps Sonny went with the other trooper. O'Regan stood beside a still figure covered with a raincoat.

"Did you cover him up?" O'Regan asked.

"I begged the man to let me. He went back to the car with me while I got the coat."

"That's that," said O'Regan. Leaving Thomas on guard, O'Regan took Sonny back to Malone. Sonny was in a state of collapse. She lay down in her cell, tense and waiting.

Across the hall O'Regan was arguing with the Chief: "I tell you the girl's telling the truth."

"You're a fool, O'Regan. He was shot in the stomach, you say. Probably he was driving."

"How could she have got him out of the car? She's not very big."

"She's wiry and desperation makes anything possible. I'm right, O'Regan. I'm getting out a warrant tomorrow morning."

"You can't!"

"You forget yourself. I'm the boss here."

"I tell you, I'm right. I've spent 24 hours with that girl driving around the country. I know the truth when I hear it. I'll prove that I'm right. Let me show her some pictures of men just paroled from Sing Sing."

The chief grinned: "O'Regan, you're a good guy but you're off on the wrong foot."

O'Regan talked with Kirk later that night. "I'm sure she's stalling the truth, Mr. Hollister."

"I agree with you."

"Will you help make them put off getting the warrant?"

"I'll do what I can. Just tell me what you want."

"Go in and talk with the Chief. He'll listen to you."

In the meantime, O'Regan had been bringing Sonny to him in the Chief's office.

"Now, Mrs. Hollister. I am going to show you a lot of pictures. I want you to tell me if you can identify any of them."

The girl and the state trooper began going over a pile of "Rogues' Gallery" photographs.

While they were in the middle of their task, the Chief came in and handed O'Regan a wire from the Monroe, Michigan, police chief. It read, in part:

RICHARDSON GIRL HAS VIOLENT TEMPER. PEOPLE HERE SAY QUARRELED WITH FOSTER-FATHER, ONCE TRIED TO THROW A PLATE AT HIM.

O'Regan handed back the wire without comment, and went on with the search through the police photographs. His face was a mask as he watched Sonny scrutinize the pictures.

"No, no," she was quick in her decisions.

"You're sure you'd recognize him?"

Sonny shivered: "I'd know him any place. I looked at him for seven hours. I'd know him!"

An hour, two hours, they worked. Then Sonny said suddenly: "That's the one!"

"You're positive?"

"Absolutely!"

O'Regan read the description on the back of the picture:

"Pierre Rinaud, 41, five feet nine inches tall. Paroled March 1, from Sing Sing, for armed robbery. Good prisoner. Living with his mother, Antoinette, in Malone, N. Y."

O'Regan said nothing more to Sonny. He put the picture in his pocket and went in to the Chief. He asked the latter for the aid of Thomas, to which the Chief consented.

## The Drive On Burma

Jap troops were hurled by the thousands into Salween River (1) when British planes smashed and riddled barges and boats in which they were trying to force a crossing 130 miles east of Rangoon (2) for a drive toward the Burma Road (3). Capture of supply line by which Chinese war machine is getting materials for continued resistance would be a serious, though not necessarily decisive blow to Allies.

# Amateur Pros Crack Out 2825 Total To Annex Tourney Lead

## ZIMMERMAN, HUNT TEAMS BLAST WAY INTO "FIRST TEN"

Sheen's, People's Lumber, City Loan Drop From Tourney Standings

The mark set by the Electric Furnace five Wednesday night at the Grate alleys was cracked last night by a vicious pin assault by the Amateur Pros of the Commercial league who blasted out a 2825, including a 231 handicap. D. Lease's 576 provided the spark for the performance. His series included a 232 game.

Two other teams, C. B. Hunt's and Zimmerman's, also blasted their way into the money. Led by W. Jackson, who fired a 609 series in actual pins, Hunt's rolled games of 939 and 935, including a 108 handicap in each game. Jackson's series was highlighted by a 248 in his second game.

Zimmerman's rolled a 952 first game, a 41-pin handicap included, and added a pair of average games to it for a 2654 total and 10th place in the standings.

Sheen's, People's Lumber and the City Loan lost their places in the top ten as a result of this bowling spree by the Amateur Pros, Hunt's and Zimmerman's.

Their were several 200 or more games scattered around last night. Among them were a 217 by E. Blackburn; a 200 by R. Rowand; a 216 by L. McMaisters; a 211 by C. Hartough; a 202 by R. Kozjan; a 202 by Balta; a 210 by L. Brown, and a 204 by G. Jones.

The marks set last night by the Pros face some threats, however, as several topnotch teams go into action before Monday. The Eagles and Citizens' Ice are serious contenders for first place money.

## SPORT CHATTER

By HUGH FULLERTON, Jr.

NEW YORK, Feb. 6.—In his high school days at New York's Monroe High, Hank Greenberg played on championship basketball and soccer teams. But his baseball team was only the runner-up. Chris Dundee has just added Lightweight Jose Basora to his stable by purchase from Angel Lopez. Four of Dundee's fighters are in the armed services, and Chris complains: "As soon as I get 'em the government takes 'em away." The Cleveland Indians may soon hire a press agent, whose first job probably will be censoring the words "cry babies."

### Confusion Corner

Michigan State has four sets of identical titles in its sports squads but Fran Dittich, assistant track coach, claims Ben and Bill Fernstrom are the most confusing pair. Seeing one of them on the track, Dittich asked: "Are you Ben or Bill?"

### Jacobs Beachcombing

Abe Simon is to be married Saturday to Rita Siebel. Frank Zamarkis, Tony Galento's New Jersey neighbor, has made a hit with Detroit fans by trotting around the ring after each fight and thanking the customers for attending.

Putting an end to a terrific war argument, Jimmy Johnston remarked: "The guy who ought to get all the medals is Billy Conn."

He really had to fight for his life against those last two sparring partners—Cooper and Turner."

### Today's Guest Star

Bob Dunbar, Boston Herald: "We never want to see again the word 'lost' applied in a story to a ball player who enlists in the armed service. It's immeasurably more important for the country to find a good soldier than it is for any sport to lose an outstanding figure."

## HANS-BURTON 1084 TOTAL STILL HIGH IN DOUBLES EVENT

England and Cameron Duo Fires 1037 To Take Second Spot

Fourteen doubles teams tried vainly last night at the Masonic alleys to crack the 1084 total garnered by Hans and Burton the night before but the mark withstood all attacks and remained at the top in the women's doubles event. F. England and C. Cameron fired a 1037, including a 204 handicap, to take over second place in the standings while M. Hassey and E. Gow rolled a 1020, with 138 pins handicap, to capture third place.

The 1012 total shot by A. McLaughlin and E. Crawford Wednesday was good enough for fourth place and a 1011 by G. Wilt and V. Wilt annexed fifth. The Wilt couple had a handicap of 240.

## Fenn Cagers Lose To Wooster, 75-19

Kenyon 59, Otterbein 51. Wooster 75, Penn 19. Defiance 68, DeSales 59. Kentucky Wesleyan 50, Rio Grande 36.

### (By Associated Press)

Coach E. M. Hole of Wooster College's smooth basketball squad has another star for his 16-year-old record book.

Last night his boys gave him the 200th victory of his coaching career by swamping Fenn College at Wooster, 75 to 19. Hole has lost 72 contests and in the present season his team is undefeated in the Ohio conference and has dropped only one game in the state competition.

Wooster's first team set up a 43-8 lead at the half and then retired to the showers as the rest of the squad carried on.

Kenyon College defeated Otterbein at Westerville, 59 to 51, in the evening's only Ohio conference contest. Defiance college played host to DeSales and administered the second loss of the season to the Toledoans, 68 to 59.

At Winchester, Ky., Kentucky Wesleyan defeated Rio Grande, 50 to 36.

Tonight's games: Bowling Green at Marietta, Wittenberg at Findlay, Ashland at John Carroll, Heidelberg at Akron, Youngstown at Toledo, Ohio University at Miami, Michigan State at Cincinnati and Oberlin at Hobart.

## ZIALE DEPARTS FOR NEW YORK IN HUFF ABOUT CONN FIGHT

Indiana's Man of Steel Vows Vengeance For Billy's Words

(By Associated Press)

CHICAGO — Tony Zale, world's middleweight champion, slammed his training paraphernalia into the wall and departed for New York with a huff.

The usually modest Zale, who rarely boasts of his fighting ability, was scorched. He had taken to heart the statements credited to Billy Conn shouting from Pittsburgh that he'd start swinging at Zale for keeps, even before crawling into the ring together to fight for important dough in Madison Square Garden a week from Friday night.

"Who does that Conn think he is?" Zale asked. "Why doesn't he save all that energy until we get paid for it. He'll need it, I'm telling you. Joe Louis slowed him down so much that he had a tough time licking a couple of very ordinary heavyweights in the last six weeks."

I know I can outlast him and I know he knows it, too. He's no super boxer. He can be tagged. Joe Louis proved that."

The 160-pound titleholder boomed defiance at Billy-the-Kid from Pittsburgh, swearing that he'd knock out the No. 1 heavyweight contender. He figures he can spot Conn 10 or 12 pounds and still win.

He pointed to his engagement with George Abrams, heretofore recognized by the New York athletic commission as champion because Zale caught up with him. Abrams used all his boxing mastery to outpoint Zale in the early rounds, but the Gary, Ind., man of steel finally connected with his brutal sledge to the ribs to come on and triumph.

Zale is to box Conn 12 rounds or less and he insists it will be less, with Conn on the floor.

Zale, in serious training, figures to face Conn at 163, with Conn possibly ten pounds heavier. The weight disadvantage, Zale claims, will be no bar, once he starts battering Conn's ribs, and varying his body shots with smashes to the chin.

The general impression in New York is that Conn perhaps will outbox the dangerous Zale. But there's always the chance of an upset when Zale swings. He always means those wicked punches.

This may be Zale's last fight for months to come because he's planning on enlisting in the navy before he is due to be grabbed by the army.

## Maroons Blessing To Big Tens Subs

CHICAGO, Feb. 6.—Several Western conference schools may have record lists of letter-winners in basketball this spring and if they do the boys will owe it all to the fact that Chicago is in the league.

Against the battered Maroons opposing coaches have used every one but the lowest man. Illinois tossed 200 players against Chicago, permitting a dozen second and third-string men to pile up precious minutes toward a letter. Purdue used 17 men and Ohio State 15 against the Maroons. No foe has used less than 11 players.

In each one of their nine straight Big Ten losses this season, the Maroons have surrendered at least 32 points to their opponents. Northwestern set the pace with a record 69 in plying Chicago under a 69-50 avalanche. Iowa has beaten Chicago twice, 53-39 and 64-40. Purdue won by 64-19, Wisconsin by 56-24, Illinois by 54-26, Minnesota by 52-28, Ohio State by 63-35 and Indiana by 63-34.

## Has Regained So Much Strength He Feels Like He Did Several Years Ago

TONJON has improved his condition and he urges anyone who needs a good remedy to try it. The benefits his brother had derived from TONJON prompted him to use it.

MR. CHESTER C. BRANT

"My condition was becoming so bad that I felt I should do something about it," declared Mr. Chester C. Brant, a retired railroad employee who lives at 913 Vine st., East Liverpool, Ohio.

"My kidneys were the cause of most of my trouble and they compelled me to get up 2 or 3 times a night. My back caused me much pain and discomfort and my feet and hands were full of rheumatism. I was a nervous 'wreck' and my sleep was broken and unsound.

"I had a poor appetite and indigestion was the result of most of my meals. My stomach would become extremely gaseous and cause my heart to flutter and I would be exceedingly short of breath. Occasionally there was a great deal of pain in the region of my gall bladder.

"My brother was taking TONJON and he was so pleased with its benefits that I tried it. The results have

been wonderful and I am greatly improved. I can sleep soundly all night and my strength is being restored so that I am beginning to feel like I used to. I am so pleased with TONJON that I urge anyone to use it."

What TONJON has done for other sufferers, it will also do for you. So don't delay getting some now, being sold at Broadway Lease Drug Store, Salem, Ohio, by the TONJON Health Representative.

EAST ST. LOUIS, Ill. — J. W. Crompton a truant officer broke up a 29-year-old collection of nickels to purchase a \$25 defense bond. He paid for the bond with 375 Liberty head nickels all that remained of a collection he started in 1912. He said the rest of the nickels were spent for Liberty bonds in the first World war.

SAN JOSE, Cal.—Superior Judge Williams has catalogued as a "cruelty" that is sufficient to justify divorce the kissing by a wife of her husband's best friend. Mrs. Archie Lobrovich, 22, insisted it was all in fun and a common practice, but the judge awarded the aggrieved husband the divorce.

The nation's housewives put more than \$1,000,000 worth of bluing a year into their laundry tubs to keep their clothes, sheets, and other goods white.

Nazi shortage of industrial diamonds is said to be so acute that gem stones are being used in industry.
